

The Nutrition Mission – Public School Survey Results

Summary

The Nutrition Mission is a weekend backpack program offered to vulnerable students within the Clintonville School District. In October 2021, the program officially launched and began serving students enrolled in Head Start through high school.

Parent and student surveys were administered in January 2022 and recorded in February 2022. The data recorded reflects 39% survey completion of the 240 students enrolled.

Figure 1. How satisfied are you with the food items sent home with you each week?

91% of students or their parental figure report being satisfied or very satisfied with the food provided each week.

Figure 2. How much of the food provided in the weekly Nutrition Mission bag does the student eat?

85% of students or their parental figures report the student consuming all or most of the food provided each week.

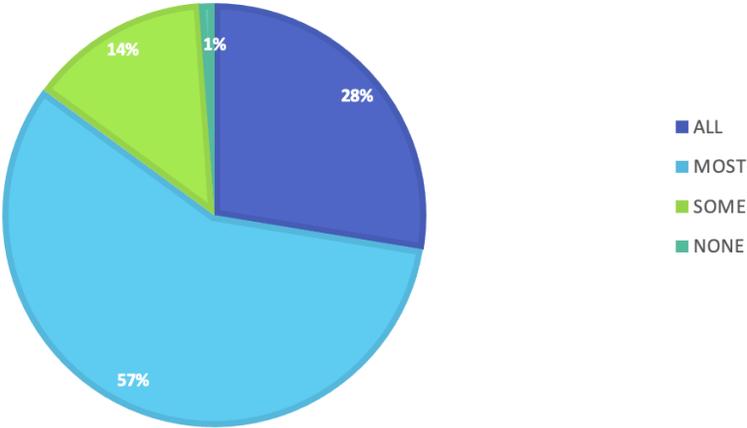

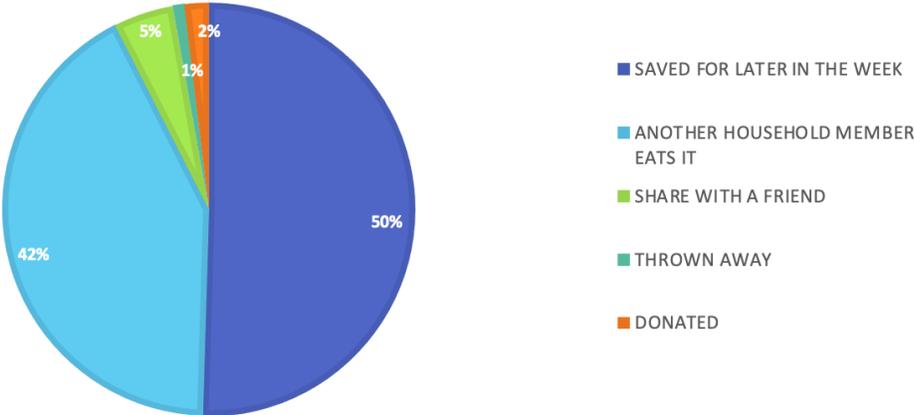

Figure 3. What is done with the food left uneaten by the student?

92% of the food left uneaten by students is saved for later in the week or is consumed by another household member. Data indicates that The Nutrition Mission is meeting a majority of the students' needs while contributing to food security within the home.
